## STOCKHOLDERS NAME OFFICERS

Manager's Report Shows Excellent Work Being Done by the Line.

At the annual meeting of the stockholders of the Honolulu Rapid Transit Company, held yesterday afternoon, the corporation received the reports of its officers and chose a board of directors and officers which show few changes from that of last year.

The reports show the company to be in excellent financial condition. For the purpose of extending the road the stockholders decided that the capital stock of the company should be increased to \$800,000, an addition of \$300,000 to its capitalization.

The meeting of the company was a large one, there being 2,051 shares out of a total of 2,500, represented. The elections resulted as follows: President, L. A. Thurston; vice president, J. B. Atherton; secretary, J. A. Gilman; treasurer, L. T. Peck; auditor, Charles H. Atherton; directors in addition to the above, W. R. Castle, George Castle and J. H. Fisher. C. G. Ballentyne, the manager, was also made a director ex-officio. The report of the manager, which was read at the meeting, sets forth the condition of the company in full, and is as follows:

The Stockholders of the Honolulu Rapid Transit and Land Company, Honolulu: Gentlemen:—In presenting this third annual report your manager is glad to be able to state that after experiencing the delays and setbacks with which you are all more or less familiar, the company completed the installation of its power plant and the construction of its roadbed and overhead structure from Alexander street, on Wilber avenue to Wyllie street, on Liliha, via Hotel and King streets, a distance of 14,726 feet, and on the 31st of August the operation of this part of our system was begun, the Government of the Territory, with appropriate ceremonies, turning the throttle valve and wishing the company the success it deserved by reason of the installation of a plant of such superior character.

On the 23rd of April a contract was entered into between the Rapid Transit Company and the trustees of the Oahu College and the Island Realty Company for the extension of the company's tracks from the intersection of Punahou street and Wilber avenue to and through the land tracts of the Oahu College and the Island Realty Company, a distance of 9,556 feet, they agreeing to supply the ballast, perform all the labor required in laying the tracks and building the overhead structure, and pay a bonus of \$17,837.26, in consideration of the company's supplying the track and overhead material. This extension was completed, and operation, in accordance with the requirements of the contract, was begun on October 31st.

On the 31st of October a contract was entered into with James S. McKee for the construction of an extension commencing at the junction of King and Liliha streets, to Kalia, a distance of 10,250 feet. This contract was completed as far as the Tramways Company's station and operation of this portion of the road was begun on November 21st. The remaining portion of this extension was completed on December 8th and the service extended to Kalia. This gives us a total track mileage in operation, including turnouts, of 8.44 miles.

These lines are now being operated in three sections, known as the "main line," extending from Alexander street and Wilber avenue to Kalia; the "Liliha street line," from Wyllie to King street, with a transfer point at King street; and the "Manoa Valley line," with a transfer point at Punahou corner.

Your directors are glad to be able to inform you that the success met with in the operation of these various lines has exceeded their fondest expectations, the income not only meeting the expense account but far exceeding it. The income to December 31st—four months—was \$42,890.55, and the operating expense account, \$24,290.20; leaving a balance of \$18,600.35, or 56.6-10 per cent of the income, which is certainly a very favorable showing, and one with which the shareholders have every reason to be satisfied. As our mileage increases we hope to be able to make even a more favorable showing, when we have our lines extended to Waikiki and King street.

One item to which I wish to draw your attention is the fact that there has been but one serious accident, and the company was entirely exonerated for responsibility therefor by the jury. For a road where everything is new and the great majority of the motormen and conductors without previous experience, this is a showing that cannot be excelled by any road in the United States.

We are now operating ten regular cars with four extras during the heavy morning and evening traffic. At this date we have 16 motor cars and four trailers set up and ready to operate. Our entire car equipment will consist of 35 motor cars and 10 trailers.

## FUTURE EXTENSIONS.

A contract is about to be entered into for the extension of our main line from the corner of Wilber avenue and Alexander street to the Waikiki road at or near the Kalia (or John Eha) road, a distance of about 6,170 feet. This line will follow Alexander street to Beretania street, Beretania street to McCully street, and McCully street to and across the McCully tract to the Waikiki road. This will necessitate a rock fill across the McCully tract, which will be made at the expense of the Waikiki Land and Loan Association. It is expected before this work has been completed that arrangements will be made for the extension of the line to and through the Kapiolani Park. After this has been completed, the construction of the King street line will be begun. This line will then constitute the main line to Waikiki, with a transfer point at McCully and King streets. For the line now in operation. Consideration has also been given to the construction of a line commencing at foot of Fort street and the Esplanade, along the Esplanade to Alakea street, and up this street to and

along Emma and Punchbowl to the extension of Kuukini, along Kuukini to Nuuanu, and along Nuuanu to the brick works. The construction of this line, with transfer points at Hotel and Alakea and King and Alakea streets, will enable passengers to connect with the steamers from all parts of the city.

I desire to take advantage of this opportunity to express my appreciation of the faithful and efficient service rendered the company by its various employees. The moral standard is high, and it will be the aim of the management to keep it so, as too much care cannot be exercised to safeguard the well being of the patrons of the road.

C. G. BALLENTYNE,  
Manager.
